

DID YOU KNOW?

Rehydrate - Restore - Recharge

Plan Ahead & Stay Safe

Supervisors -

- Keep plenty of cool fluids with electrolytes close to where the hot work is performed
- Provide shade for breaks when workers need to recover
- Educated your crew on the common signs & ways to prevent heat related illness
- Select a designated person to notify if there is an emergency
- Workers in high or very high / extreme heat index risk levels should be psychologically monitored as necessary.

Crew Members -

- Use the buddy system & watch out for others on your team
- If you haven't worked in the heat for a week or more, your body needs time to adjust. Take more breaks or do less strenuous work during the first weeks.
- Drink plenty of cold fluids with electrolytes every 30 minutes
- Wear personal protective gear like hats & light coloured clothing to reduce direct sun exposure. Use absorptive or evaporative cooling accessories to aid in keeping core body temperature in check & fast drying clothes to wick away sweat from the skin

Sqwincher® Provides Safe, Proven Effective Hydration Solutions

DEHYDRATED?

Check The Colour of Your Urine

This urine colour chart is a simple tool that can be used to determine if enough fluid is being consumed throughout the day to remain properly hydrated.

Pale Yellow

You Are Properly Hydrated.

Dark Lemon or Straw

Hydration Level Average
Keep Drinking

Amber or light brown

Hydration Level Very Poor
Rehydrate Immediately!

ESSENTIALS

Holemaker 920W MAG BASE MACHINE

HMPRO35

\$1493.85 INC GST

\$1299.00

QUALITY EUROPEAN MADE MAGNETIC DRILLING MACHINE

The Holemaker PRO 35 is a high quality, compact & robust, fully featured machine. Weighing in at just 10kg, this machine is ideal for those on-site & overhead tasks, whilst the solid, robust construction means the **HMPRO35** is perfect for everyday manufacturing type applications.

- Features include a gravity feed coolant system with a magnetically attached coolant bottle, allowing coolant feed whilst drilling in vertical applications.
- The feed handles can be placed on either the left or right hand side, providing further versatility when using this compact machine in tight positions.
- Dual rail slide system provides rigidity & eliminates the need for gib adjustments.

SPECIFICATIONS:

Capacity (Diameter - max)	35mm
DOC (Depth of Cut - max)	52mm
Height (min / max)	306mm / 376mm
Capacity (Twist Drills)*	12mm (Weldon Shank ONLY)
Motor Input Power	1000 Watt
Motor Output Power	920 Watt
Speed	350rpm
Magnet Dead Lift	9500Nm (25mm steel plate)
Weight	10.0kg

SUPPLIED IN METAL CARRY CASE WITH CUTTER GUARD & SAFETY STRAP

*12mm twist drill capacity using Weldon shank twist drill bits.

Bonus Ugly Fish Safety Glasses with Every HMPRO35 Purchased

Holemaker - Magnetic Base Drilling Machines

A Comprehensive Range of Cutters & Accessories Available

MADE IN EUROPE

AND THE WINNER IS...

We can't tell you just yet!! But we will next issue...

Due to printing lead times, the winner was drawn after this issue went to print.

If you haven't got it, you can't use it...

OIL CONTROL GUN WITH DIGITAL METER

GZ45771

\$517.⁵⁰ INC GST\$450.⁰⁰

- Electronic digital meter with 5 digit display for use with air operated oil pumps.
- Fitted with swivel at inlet threaded 1/2" BSPT (F).
- Curved steel discharge spout (non-drip).
- Max working pressure 870 PSI.
- Oval gear mechanism for optimum accuracy
- Measures flow in the range of 1 - 30 LPM up to a +/- 0.50% accuracy.
- Max dispense / totalizer volume of 99,999 litres.
- Dispense volume can be set in Litres, Gallons, Quarts & Pints.

RECOMMENDED USE - Oils with viscosity upto 5000 cSt, Diesel, Biodiesel

DO NOT USE WITH - Water based media, Gasoline etc.

WETTED COMPONENTS - Aluminum, Stainless Steel, Steel, Nylon, Viton, Nitrile Rubber & POM

AIR OPERATED OIL DISPENSING KIT

GZ45350

\$517.⁵⁰ INC GST\$450.⁰⁰

- All metal construction, fully CNC machined with hard wear resistant moving parts.
- Air Motor Stub Pumps are supplied with Non Return Valve threaded 1" (F) for use on the bottom of the Stub Tube.
- Pumps are single acting with discharge up to 14 LPM
- Ideal for use with medium to high viscosity oils (up to 130 SAE)
- Air Consumption - 230 LPM

Pump Specifications

- Working Pressure - 2-10 Bar (30-150PSI)
- Max. Air Pressure - 10 Bar (150PSI)
- Air Inlet Connection - 1/4" BSP (F) / 1/4" NPT (F)
- Pump Outlet Connection - 1/2" BSP (F) / 1/2" NPT (F)
- Pump Inlet on Stub Pumps only - 1" BSP (F) / 1" NPT (F)
- Noise Level - 81 db

PISTOL GRIP GREASE GUNS

EACH

\$34.⁵⁰ INC GST\$30.⁰⁰

TORQUE TOLERANCES [ISO06789/88E BS6703/88]

The recognised specification is that the minimum reading should be 20% of the maximum & the maximum deviation should be $\pm 7\%$.

The tolerance range is certified to have been calibrated prior to shipment to the accuracy of $\pm 4\%$ & an individual inspection number is shown on the torque wrench & the instruction sheet enclosed with the torque wrench.

All torque wrenches, regardless of brand, should be regularly checked for accuracy, once a year or every 5000 torque applications, whichever comes first. A bit like servicing your car, boat or bike.

Conversion Formula:

$$1 \text{ Nm} = 0.1019 \text{ Kgm} = 0.73756 \text{ ft/lb}$$

$$1 \text{ ft/lb} = 0.1383 \text{ Kgm} = 1.3556 \text{ Nm}$$

$$1 \text{ ft/lb} = 12 \text{ in/lb}$$

22PC 3/8" DRIVE TORQUE WRENCH SET

TTX3892

\$218.50 INC GST

\$190.00

- Set consisting of torque wrench, 10 crow foot spanners, bit socket, 8 TX bits & extension bars 75 & 125mm.
- Individual calibration certificate enclosed.
- Supplied in TC tray suitable for Teng Tools tool boxes & roller cabinets. Tightening torque for Millimetre-screws in different strength grades
- Drive size - 3/8"
- Torque range ISO - 20-100 Nm
- Torque range Imperial - 15-75 lbf/ft
- Crow foot spanners - 10, 11, 12, 13, 14, 15, 16, 17, 18 & 19mm
- Bits for TX heads - TX 8, 10, 15, 20, 25, 27, 30 & 40

5 PIECE AUTOMOTIVE WHEEL TOOL SET WITH SOCKETS

TTXW05

\$201.25 INC GST

\$175.00

- Five piece set consisting of three wheel nut sockets for domed cap nuts, tyre balancing weight pliers & a 1/2" torque wrench.
- Fits in Teng Tools tool boxes and roller cabinets.
- Wheel nut sockets 1/2" drive - 17, 19 & 21mm
- Tyre balancing weight pliers, length - 245mm
- Torque wrench 1/2" drive - 40-210Nm

MINI TORQUE WRENCHES 'Q' SERIES

FROM

1/2" DRIVE TYRE SHOP TORQUE WRENCH

KD3498

\$276.00 INC GST

\$240.00

- Specifically designed for checking of wheel lug nuts to exact manufacturer recommended torque value.
- Reversible ratchet head has 45-tooth ratchet design requiring only 8° of hand travel for indexing.
- Imperial & Metric markings are colour-coded for easy reading.
- Tough "tyre tread" rubber cover on head, lock ring & handle provides cushioning effect to reduce operator fatigue and tool damage.
- Micrometer type setting adjusts by rotating the hand grip.
- Accuracy - $\pm 3\%$ right hand (clockwise in upper 80% range)
- Imperial Range - 25-250ft/lb (1 ft/lb increments)
- Metric Range - 47.45-345.69Nm (3.36Nm increments)

2 PIECE TORQUE MULTIPLIER & WRENCH SET

TTXMP12

\$655.50 INC GST

\$570.00

- Set containing one torque multiplier & one torque wrench.
- The torque multipliers input tightening torque is increased 3 times on the output drive.
- The torque wrench has a 1/2" square-drive and torque range 40-210Nm.
- Individual calibration certificate enclosed.
- Supplied in a plastic TC tray with removable lid.
- Fits in Teng Tools tool boxes and roller cabinets.

Torque Multiplier:

• Max. tightening torque - 1400Nm

• Input - Output drive - 1/2 - 3/4"

Torque Wrench:

• Torque range ISO - 40-210Nm

• Drive size - 1/2"

3 PIECE 120XP RATCHET SET 1/4", 3/8" & 1/2"

GW81206P
\$138.00 INC GST **\$120.00**

The GearWrench 120XP™ Ratchets take access to the next level. The Double-Stacked Pawl design delivers 120 Positions, exceeds ASME torque performance requirements & gives easy access to fasteners, delivering eXtreme Productivity.

Speed:

- 120 Positions give a 3° ratchet arc so you can turn a fastener in tighter confines

Access:

- Ratchet only needs 3° to move fastener providing increased accessibility
- Teardrop low profile head and flush mounted on/off switch allows better access in tight spaces

Strength:

- Double-stacked pawls engage on 60-tooth gear providing exceptional strength
- Full polish chrome finish is easy-to-clean and provides high visibility

GEARWRENCH

Comprehensive metric & imperial based tool kit from GearWrench®.

Supplied in the XL Series 8 Drawer Top Box (GW83159) with 90 pc socket & accessory EVA Tray Set (GW83071).

Set includes 6 & 12 point sockets, regular & deep with extension bars. Covers sizes 5/32" to 1-1/4" & 4mm to 32mm.

PRODUCT FACTS

GEARWRENCH

NEW RANGE

120XP Ratchets FEATURES & BENEFITS

Speed

- 120 Positions give a 3° ratchet arc so you can turn a fastener in tighter confines
- Highly visible on/off markings on the head

Access

- Ratchet only needs 3° to move fastener providing increased accessibility
- Teardrop low profile head & flush mounted on/off switch allows better access in tight spaces
- Longer reach handle to access hard to reach fasteners

Strength

- Double-stacked pawls engage on 60-tooth gear providing exceptional strength, exceeding ASME specifications
- Enclosed head design for extreme resistance to dirt
- Full polish chrome finish is easy-to-clean & provides high visibility
- Bevelled head

Flex Flare Nut Wrench Sets FEATURES & BENEFITS

Speed

- Quickly ratchet flare nuts & bolts without removing the wrench from the fastener
- Size is stamped on both sides for quick identification

Access

- Flex head provides access to difficult to reach hose fittings & gets around other obstructions
- Flare nut wrench head easily slips over lines, without rounding or damaging the fastener

Strength

- Flex flare nut wrench design exceeds ANSI requirements for strength & durability
- Bright chrome finish is easy to clean & provides high visibility
- Flex head can be positioned through 180° to access hard to reach fasteners

TYPICALLY TENG SNIPS

FEATURES

- Central fastening for locking when not in use
- Double, over wound, high torsional strength spring designed for frequent use.
- Soft two component handle with no slip design for more comfortable use with a secure grip.
- Hanging hole incorporated in to the handles for convenient storage.
- Serrated cutting edges manufactured from chrome molybdenum alloy steel for stable cutting with minimal slippage
- Colour coded handles that indicate left (red), right (grey), or straight (yellow)

Holemaker - HSS Annular Cutters

Holemaker
QUALITY EUROPEAN MADE MAGNETIC DRILLING MACHINES

**HIGH SPEED STEEL
ANNULAR CUTTERS**

UNIQUE HOLEMAKER CUTTER FEATURES

M2AL HIGH SPEED STEEL MATERIAL

M2AL High Speed Steel is a High Alloy Material with a Hardness of up to 67.5 HRC, designed for increased endurance of the cutting edge & tool life.

STEP HARDENED PROCESS

This state of the art manufacturing process produces cutters with extremely hard tooth tips for increased cutter performance, while maintaining a softer body which is less susceptible to breakage than standard high speed steel cutters.

FULLY GROUND WITH INTERNAL RELIEF

This feature allows Holemaker cutters to produce reamed quality, burr free holes and also helps to reduce torque & horse power requirements.

TITANIUM NITRIDE COATING

The Titanium Nitride coating significantly increases the tool life by providing the following benefits -

- Increased surface hardness to 85HRC
- Ceramic surface, reducing friction by up to 30%
- Especially resistant to cold welding
- Suitable for cutting a wide range of materials

MULTI CUT GEOMETRY

Provides smooth & fast cutting with decreased chatter. This also increases the cutters ability to remove swarf away from the cut & helps to enhance centering.

UNIVERSAL SHANK

19.05mm (3/4") Universal Shank with flat sections to suit most magnetic base drilling machines.

Sizes - 12-52mm Dia (25 & 50mm depth) + Imperial Sizes

HOLEMAKER ANNULAR CUTTER SHARPENING MACHINE

HMCS100-2

\$5750.00 INC GST

\$5000.00

Sharpen high speed steel annular cutters in the simplest possible manner. The robust construction & specific design enable easy operation to sharpen cutters with maximum precision.

This machine is designed for HSS & TCT annular cutter reshaping. Machine is not recommended to any other applications.

The machine enables easy annular cutter reshaping. Due to solid & precise construction & small dimensions the HMCS100-2 can be easily transported to job sites. The HMCS100-2 was designed as a user friendly machine. Full instructions included.

SPECIFICATIONS:

- 240v 1200w Motor - 2800rpm
- Diamond grinding disk - 125mm
- Hole diameter - 10mm
- 19mm (Weldon shaft) Cutter Holder
- Will sharpen cutters 50mm dia x 50mm depth of cut
- Dimensions - 465(L) x 399(W) x 355(H)mm
- Net Weight - 15.5kg
